

MACS - Master in Anti-Corruption Studies

UN photo/Mark Garten

»Corruption's detrimental effects on the welfare of societies cannot be redressed with quick-fixes. The MACS programme provides its participants with innovative strategies and tools for tackling this menace at its core. It integrates a vast spectrum of academic disciplines and sectors in the delivery of sustainable methods and results.«

Martin KREUTNER
Dean and Executive Secretary
IACA

The Master in Anti-Corruption Studies (MACS) is a two-year programme designed for working professionals who wish to remain fully employed while pursuing their degree. It consists of seven intensive modules, each with ten-day in-class sessions preceded and followed by written assignments. Classes take place in Laxenburg, Austria, and other regions of the world. MACS students have the opportunity to study in a participatory environment, within a group of motivated and committed peers.

Students and employers will benefit from the rich academic and practical focus offered by the first international Master programme in anti-corruption. Graduation with the MACS degree enhances employment opportunities in such fields as anti-corruption, compliance, law enforcement, investigative journalism, academia, finance, and international affairs.

ABOUT IACA

The International Anti-Corruption Academy (IACA) is an international organization which aims to substantially contribute to the global fight against corruption. Through education, research, and cooperation, it strives to address shortcomings in knowledge and practice and empower professionals. It draws on an unwavering drive towards excellence, a spirit of innovation, and a commitment to rendering itself accessible to participants from each part of the world.

IACA was initiated by INTERPOL, the United Nations Office on Drugs and Crime (UNODC), the European Anti-Fraud Office (OLAF), the Republic of Austria, and other stakeholders. It has been an international organization since 8 March 2011. IACA has a constituency of about

70 UN Member States and international organizations, and cooperates with a number of international bodies and academic institutions.

LOCATION

With state of the art facilities, IACA offers a campus atmosphere and a conducive learning environment. It is situated in

Laxenburg, a small picturesque town neighbouring the Austrian capital, Vienna.

Vienna is home to more than 30 international organizations and hosts one of the four main United Nations offices.

A HOLISTIC APPROACH

Based on IACA’s new holistic approach to the fight against corruption, the MACS offers a diverse curriculum. It reflects the different academic disciplines necessary for providing comprehensive insight into the corruption phenomenon, while also offering know-how and expertise from non-academic fields.

IACA'S HOLISTIC APPROACH				
INTERNATIONAL	INTERDISCIPLINARY	INTER-SECTORAL	INTEGRATIVE	SUSTAINABLE
Observing regional diversity and foreseeing the broadest possible outreach	Providing know-how and expertise from various academic disciplines	Catering to all sectors of society	Bridging the gap between theory and practice by offering theoretical and practical knowledge and tools	Striving towards long-term and long-lasting solutions and services

PROGRAMME OBJECTIVES

The MACS enables professionals in managerial and leadership positions to become better acquainted with the intertwined manner in which corruption manifests itself and the social complexities surrounding it. Participants are provided with the necessary skills and tools to better understand and contribute to the fight against corruption and take preventive measures to this effect in their own environment. Through access to about 1,100 IACA alumni in more than 150 countries and jurisdictions they have the chance to develop a strong network of professionals that will assist them both during and after their studies.

»Fighting corruption is not simply a form of governance; it is a tool of governance upheld by responsible humanity. In the MACS programme, students learn the art and science of this important discipline. They are the steering force to a clean, fair, and just society.«

Daniel Ming-chak Li
Deputy Commissioner and Director of Operations (ret.), Hong Kong Independent Commission Against Corruption
MACS lecturer

PROGRAMME STRUCTURE AND DESIGN

During the first academic year, the programme includes a series of multi-disciplinary core courses that provide participants with a strong foundation of fundamental theories on corruption, combined with academic research methodology.

During the second academic year, the programme focuses on courses that provide participants with practical strategies in countering corruption.

Additionally, participants are required to complete a master's thesis for which supporting courses are provided.

Throughout the programme, participants will also attend sessions conducive to their personal development. These sessions are meant to facilitate networking within the group and enhance an open attitude towards common and sustainable solutions.

Courses are carried out through lectures, case studies, interactive games, group work, stakeholder discussions, and other interactive methods, and strive to prepare the students to offer effective anti-corruption measures themselves. Modules are complemented by panel discussions, study visits, and special events.

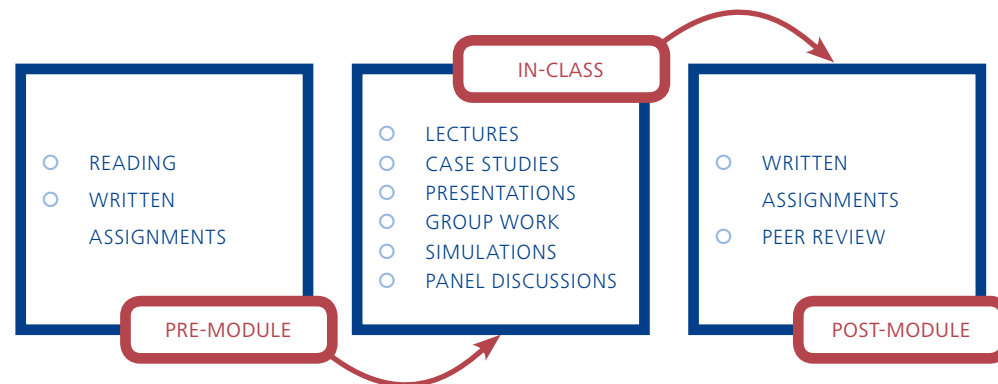

MACS CURRICULUM	MODULE I Concepts and Issues in Corruption
	MODULE II Political Science and Corruption
	MODULE III Economics of Corruption
	MODULE IV Anti-Corruption, Law and International Initiatives
	MODULE V Anti-Corruption, Compliance and the Private Sector
	MODULE VI Anti-Corruption Enforcement and the Public Sector
	MODULE VII Corruption Prevention and the Future of Anti-Corruption
	Master's Thesis

»The MACS has made my transition from the position of Chief Prosecutor to Chair of the Anti-Corruption Commission in Sierra Leone seamless. The course content has benefited me not only intellectually but also institutionally. I have been able to translate what I have learned at IACA into workable policies which guide my leadership decision-making.«

Ady Macauley (Sierra Leone)
Chief Commissioner
Sierra Leone Anti-Corruption
Commission
MACS 2015-2017 student

The MACS uses a three-tier modular structure (pre-, in-class, and post-module), ensuring effective knowledge transfer and the immediate applicability of the content.

The **pre-module** (self-study) phase offers readings and assignments which aim at achieving an equal standard of knowledge within the group.

The **in-class** phase allows participants to expand on and utilize the knowledge they acquired in the pre-module (self-study) phase. Participants are guided by lecturers who provide them with more in-depth knowledge and practical tools. This phase prepares participants for the practical use and application of the material in their professional settings.

During the **post-module** (written assignment) phase, participants have the opportunity to apply the knowledge gained while carrying out their assignment or project which reflects the overall learning outcomes of each module.

The MACS programme has been developed in consultation with and is supported by major international stakeholders from all sectors. For more information on our partners, please consult our website at www.iaca.int/constituency/partners.html.

»I really enjoyed the MACS programme because of the diversity of people that I interacted with, not only culturally but also from a career perspective. Part of the driver for me in signing up was to learn about what other corporations are doing and what best practices would be.«

Karen Schonfelder (Canada)
Head, Compliance Program Office
and Compliance Officer (Acting),
SNC-Lavalin
MACS 2012-2014 graduate

CANDIDATE PROFILE

The MACS programme aims to bring together professionals from all regions of the world, who have a minimum of three years of working experience in the public or private sector, international, non-governmental, or civil society organizations.

The programme also welcomes media representatives and academics with a proven history of academic research in areas related to corruption.

ADMISSION REQUIREMENTS

- Undergraduate degree, equivalent to a Bachelor degree
- Minimum of three years of relevant work experience or a proven history of academic research in areas related to anti-corruption and/or compliance
- Proficiency in written and spoken English

ADMISSION PROCESS AND CRITERIA

Participants are selected taking into account their professional and academic experience. IACA is committed to promoting diversity and strives to attract participants from various regional and professional backgrounds. Bringing together diverse perspectives and practices to better learn about and tackle corruption is essential to the quality of the MACS programme.
